

A Franchise Opportunity

## Our Mission

We believe scale is important so we make this possible by allowing the development of three homes under a single Franchise Agreement. BrightStar Care Homes provides stability and comfort to residents who are looking for a more affordable setting that truly feels like home. Each BrightStar Care Homes location is beautifully designed and provides residents with the comfort, functionality and efficiency of their own homes. Investing in BrightStar Care Homes is attractive because they are designed to be both a business and real estate investment, setting franchisees up for long-term financial success. These homes are also a reliable opportunity for those looking to break into the healthcare industry, allowing them to start smaller, get to know the ins and outs of the business through our strong franchise support system and build their way up.

## BrightStar Care Homes Are

Smaller Footprint Locations  
Including 8-12 Suites

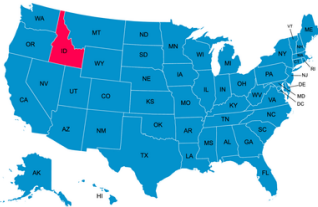

Ranch-Style Assisted Living  
and Memory Care Residences

Average size 5,500  
square feet

## Our Territories

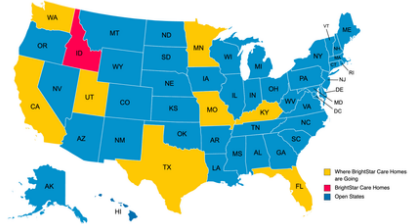

### Where We Started

Boise, ID

### Where We Are Growing

CA, UT, TX, MO, KY, FL, MN, WA

## Our Leadership

*"Franchise owners have the opportunity to enter an industry where the demographics support years of increasing demand. With the ability to develop three homes under each agreement, building scale incrementally opens the door for growth over time to meet the needs within each community we serve."*

— Pete First,  
Chief Development Officer
